Letter From IR - Campaigning Rules

Re: Campaigning for upcoming elections

Dear Mr. Coffey:

In anticipation of the upcoming IAM internal elections, I wish to call your attention to the provisions of Article VI, Section D & E of the Collective Bargaining Agreement which sets forth restrictions of the distribution and posting of literature on Company property. As in the past years, the Company appreciates the IAM's cooperation in this matter.

Cleveland-Cliffs continues to strive to maintain stringent Housekeeping Standards established for the Middletown Works. The posting of any campaign literature, with particular emphasis on gummed stickers, which results in damage to or defacement of any surface is prohibited. No posting is to be placed on painted or glass surfaces at any location. To continue our housekeeping efforts and to avoid costly clean-up and employee complaints, we request your cooperation in the posting of all IAM officer election campaign material.

To provide for the orderly egress and ingress to the plant and to provide for the order and safety of all employees and visitors, no solicitation or distribution of literature is permitted at the plant gates. We ask that candidates limit their use of posters and signs along the main gate entrance area to avoid unsightly clutter at the visitor entrance.

The Company retains the right to restrict the posting of material in the plant; should there be problems resulting from the postings of material within the plant, all postings will be forbidden.

We ask for the IAM Executive Board's assistance in assuring adherence to this policy by all the candidates. Your cooperation is greatly appreciated.
